The Japan Mail translates the following from port, dated the 22nd April, runs as follows :- A steamer belonging to a German firm here arrived at this port on the 8th April, from Shanghai via Nagasaki, with no less than 100,000 mulberry plants. The plants were ordered some time ago by the Korean Government from the German firm, and a scheme for cultivating them was prepared while Mr. Möllendorff was still in the service of the Government. A German was specially engaged by the Soulanthotities in 1854, at a monthly salary of \$500, to carry out the scheme, but the matter has been delayed till the present time. Planting is to be commenced at Soul. Another consignment of 100,000 plants i is to be ordered at an early date.

FILTAL PIETY IN CHINA.

TO THE EDITOR OF THE "DAILY PRESS." SIR,-This moment as I chanced to call at the Club, your issue of the morning has brought me a surprise that had been also a mortification, but that it furnishes mo a welcome opportunity to point to some specimens of the annoying perversions that printers are wont to foist upon s patiently indulgent public only too successfully albeit they are blemishes to make a school-boy binsh. These are of more serious, import; and in hastening to thank you for the prominence Triven to your reproduction of my contribution upon the important question of Filial Piety, as you found it reported in the May issue of the Journal of the China Branch of the Royal Asia tic Society, I desire to state that what is, to my mind, a degree of obtrusiveness from which I may well shrink, has arisen from the accidental omission of my paper from the issue of the Journal of January, wherein the papers of the other contributors were published, and the consequent attempt to reinstate me in the position as one of the eleven whose answers were in the affirmative, as declared by the President and read on the 15th of October, as appeared in a report to the N. Herald, wherein the names were all given, as were those of the six contributors in the negative. But, by some mischance, the attempt has so far miscarried that I am compelled to ask the further favour of publication of my paper from the enclosed original press copy, wherein it will be seen that I wrote of the "domestic polity" of China, not of its policy, and of "a hypothetical element," not of hypothetical element, nor did I. same and before "Otherwise" on the fourth line If your generosity, in thus having drawn at tention to the most influential factor in Chinese national life, leads your readers to the perusal of yours wery truly, GIDEON NYE.

subject, for assault and battery upon Mr. F. Noville, an American subject, which we stated in our last issue would have to be referred to Yokohama, was eventually settled by Mons. Frandon fining the defendant \$22 and costs. Considering the gravity of the offence: of deliberately going home and procuring "knuckledusters," and using them without provocation (or even with provocation) upon a person in the public streets,—and which cannot in any way be compared to a common assault, committed in the heat of the moment. -- we think the sentence imposed an absurdly light one; but at the same time we believe the law was enforced to the full extent. Should the same party be guilty of a re-petition of the offence, he will, we believe, not be in such a good position to congratulate himself upon the leniency of the law as at present.—

YOKOHAMA. The Mainichi Shimbun says that foreign firms Captain Peter C.
